The Tabula Rasa HealthCare (TRHC) Research & Development Pillar is committed to the development and dissemination of population health and patient-specific, data-driven technology and solutions that optimize medication regimens, manage medication risks, improve patient outcomes, reduce hospitalizations, and decrease healthcare costs.

Last year was transformational for the TRHC Research & Development Pillar, as it marked the unification of numerous nationwide research collaborators, including partners from the Precision Pharmacotherapy Research & Development Institute, Applied Precision Pharmacotherapy Institute, TRHC’s Healthcare Analytics department, DoseMe, SinfoniaRx, The University of Arizona College of Pharmacy, and The Ohio State University Institute of Therapeutic Innovations and Outcomes.

In 2019, our mission to disseminate outcomes specific to TRHC solutions led to an impressive volume of publications. Our researchers published 26 papers in renowned journals, including the British Journal of Clinical Pharmacology, Clinical Pharmacology & Therapeutics, The Journal of the American Osteopathic Association, Epilepsy Research, Journal of the American Pharmacists Association, and Xenobiotica. Research and Development Pillar members were cited 187 times last year in the areas of pharmacogenomics, drug-drug interactions, medication therapy management, transitions of care, and cytochrome P450 activity.

Our national team gained stakeholder knowledge as they served in more than 45 leadership roles in professional organizations. Our team also contributed to the research community by actively participating as peer reviewers for more than 20 leading journals, producing 37 abstracts and poster exhibits, and leading 34 live scholarly presentations.

Congratulations to our valued members of the TRHC Research & Development Pillar who received more than 36 professional awards last year! As we look forward, we are excited to strengthen our reputation in the healthcare industry as a leading provider of high-quality research, with 9 papers already in-press with prominent journals.

Dr. Jacques Turgeon
Chief Scientific Officer
Tabula Rasa HealthCare
Research Strategy Committee

The TRHC Research Strategy Committee is composed of members from the Applied Precision Pharmacotherapy Institute, SinfoniaRx, Precision Pharmacotherapy Research and Development Institute, The Ohio State University Institute of Therapeutic Innovations and Outcomes, and The University of Arizona. The committee meets monthly to advocate for research dissemination and to support TRHC’s mission and vision.

Jenny Bingham, PharmD, BCACP, is President of the TRHC Research Strategy Committee. She promotes the excellence and growth of TRHC through oversight of research from project conceptualization to outcomes dissemination. Dr. Bingham is passionate about advancing the role of pharmacists in the telehealth setting and was recognized as the Next-Generation Pharmacist® Technology Innovator of the Year for her efforts in successfully leveraging telehealth pharmacy models to advance patient care standards and business profitability.

Veronique Michaud, PhD, BPharm, is Chief Operating Officer of the TRHC Precision Pharmacotherapy Research & Development Institute in Orlando, Florida. She is an adjunct professor, Faculty of Pharmacy, at the University of Montreal and has directed a pharmacokinetic and bioanalytic core facility at the University of Montreal Hospital Research Centre. Her research investigates the contribution of cytochrome 450 drug-metabolizing enzymes in drug disposition, with special attention on the role of disease states, focusing on type 2 diabetes mellitus. She has earned more than $22 million in research awards, published more than 40 peer-reviewed journal articles, and mentored graduate students and PharmD residents. Dr. Michaud completed fellowships at Indiana University in Indianapolis and McGill University in Montreal and earned Doctoral and Master of Science degrees at the University of Montreal in Canada.

Sandra Leal, PharmD, MPH, FAPhA, CDE, is Executive Vice President of the TRHC Health Plans and Payers Business Unit. Dr. Leal is responsible for oversight and forward-thinking expansion of pharmacists’ services that focus on outcomes, access, and quality. Dr. Leal was recognized as the American Pharmacists Association Good Government Pharmacist-of-the-Year for her advocacy work on pharmacist provider status and is the president-elect of the American Pharmacists Association for the 2020-2021 term.
Research Strategy Committee (Continued)

Milap C. Nahata, PharmD, MS, is Founding Director of the Institute of Therapeutic Innovations and Outcomes at The Ohio State University College of Pharmacy. He has published more than 600 peer-reviewed journal articles, book chapters, and five books about the clinical pharmacokinetics, pharmacodynamics, effectiveness, and safety of medications used in adult and pediatric patients. Additional research interests include impact of the population's social determinants on their health outcomes with the usage of medications.

Jeniece Roher, CIPP/US, CIPP/G, MCM, is Chief Compliance Officer, HIPAA Privacy Officer at TRHC. She provides multifaceted leadership for the organizational compliance program and serves as the individual responsible for establishing and implementing an effective compliance program to prevent illegal, unethical, or improper conduct.

Vanessa Ruiz, BS, is Project Manager & Operations Coordinator at The University of Arizona College of Pharmacy Research Team. Vanessa has more than three years of experience in project and relationship management and strategic planning in research and business, including as an external affairs associate to improve policies for high-performing, low-income Arizona K-12 schools. Since joining the research team, she has been instrumental in expanding and improving day-to-day operations; elevating the team’s overall efficiency and effectiveness; and collaborating with partner organizations on the communication, design, and dissemination of innovative research.

Luke Oglesby, BS, is a SinfoniaRx Business Systems Analyst. He received a Bachelor of Science in Biology with a minor in Health Care Management from Metropolitan State University of Denver in Colorado. Luke is responsible for ensuring that SinfoniaRx can provide the most valuable data possible for client outcome reports.

Nicole Scovis, PharmD, BCPS, BCACP, is Director of Strategic Growth at TRHC, where she pilots new pharmacy services in areas such as integrated behavioral health clinics, accountable care organizations, and private wellness programs. Program implementation focuses on improvement in clinical, economic, and humanistic outcomes, and ultimately on sustainability and scalability to allow broader access to these services. Dr. Scovis also helps to develop and maintain clinical programs across the SinfoniaRx line of business and serves as a faculty member at The University of Arizona College of Pharmacy.

Ann M. Taylor, MPH, MCHES, is Editor and Director of Operations for The University of Arizona College of Pharmacy Research Team and plays a key role in compliance and editorial review, as well as in ensuring rapid dissemination of research results for the research team and partnering organizations. Her extensive research career has involved coordinating Phase I-III clinical studies for refractory cancers, large-scale federal grants, and contracts with national and state entities. She has collaborated with interprofessional teams on the development and evaluation of innovative programs for diverse audiences. Ann is a Master Certified Health Education Specialist (MCHES) who has authored more than 30 peer-reviewed publications on cancer prevention, medication therapy management, and end-of-life care, and she has presented at regional and national conferences.

Jacques Turgeon, PhD, BPharm, Chief Scientific Officer of TRHC and is recognized internationally for his excellence in research and pharmacy education. He has received more than $70 million in research awards, authored more than 145 peer-reviewed articles, and mentored nearly 70 students. His research interests focus on studying factors responsible for the intersubject variability in drug response, and he is renowned for his expertise in the role of pharmacogenetics in cardiovascular drug actions. Dr. Turgeon is also professor emeritus at the University of Montreal, fellow of the Canadian Academy of Health Sciences, and fellow of the Académie Nationale de Médecine, France.

Terri Warholak, PhD, RPh, FAPhA, CPhQ, is a professor in the Department of Pharmacy Practice and Science and Assistant Dean of Academic Affairs and Assessment at The University of Arizona College of Pharmacy in Tucson. As Director of The University of Arizona College of Pharmacy Research Team, Terri oversees all research activities, mentors graduate students and postgraduate year-2 residents, and collaborates on projects with SinfoniaRx and TRHC. She serves on numerous national committees, including the U.S. Food and Drug Administration Drug Safety and Risk Management Advisory Committee and the Pharmacy Quality Alliance Research Coordinating Committee. She has published more than 110 papers and has presented at local, state, national, and international venues on topics that include medication error reduction, measure development, and quality improvement.
Research dissemination

Note: Data were collected January 29, 2020, and include a comprehensive list of publications from SinfoniaRx, the Precision Pharmacotherapy Research & Development Institute, and the Applied Precision Pharmacotherapy Institute in renowned journals.
Peer-reviewed published articles

Published abstracts and posters at scientific meetings

27. Le L, Paulk I, Pham T, Baesen K, Bingham J. Variance in state legislation allowing pharmacists to legally convert prescriptions from a 30- to 90-day supply for chronic medications. Comparison of 90 day conversion regulations based on geographic state. The University of Arizona College of Pharmacy Post Session. April 2019.

1. Almodivar AS, Nahata M. Potentially harmful medication use among Medicare patients with heart failure. Accepted for publication by Am J Cardiovasc Drugs.

Professional awards and recognition

• Brittany Abele, RN: 2nd Place Poster Award, International Society of Psychiatric-Mental Health Nurse Annual Conference
• Rhys Axon, MPH, MS, PhD: Bronze Medal Winning Poster Abstract, Academy of Managed Care Pharmacy; Gold Medal Winning Poster Abstract, Pharmacy Quality Alliance
• Jenny Bingham, PharmD, BCACP: Pharmacy Times & Pirata System’s Next-Generation™ Pharmacist-Technology Innovator of the Year Award
• Malanika Deedhar: Winner, People’s Choice Award, 3-minute thesis, St. Albert’s Research Day, Creighton University
• Jessica DiLeo, PharmD, BCGP, BCACP: Arizona Pharmacy Association Past President Award
• Kristin Calabro, PharmD: The University of Arizona Quality Improvement Project Presentations First Place-Phoenix
• Whitney Everett, PharmD: The University of Arizona Quality Improvement Project Presentations First Place-Tucson
• Sandra Leal, PharmD, MPH, FAPhA, CDE: American Pharmacists Association President-Elect
• Robert Lipsy, PharmD, BCACP, FAcPhA: Arizona Pharmacy Association Appreciation Award
• Breanne Lott, MPH, CPH: Health Research Award, Coveredell Fellows Outreach Showcase, The University of Arizona; Jack Vaughn Leadership Award, Coveredell Fellows Program, The University of Arizona; Best Student Poster, International Cancer Education Conference
• Srijitha Marupuru, PharmD: Katherine B. Willock Library Research Award, The University of Arizona Student Showcase; Best Human Health Research Award, The University of Arizona Student Showcase
• Lorraine Mobley: Alachua County Association of Pharmacists Pharmacist of the Year Award; Alumni Inductee, Phi Lambda Sigma Pharmacy Leadership Association

• Keny Morales, PharmD: Arizona Pharmacy Association Pharmacy Appreciation Award; The University of Arizona Quality Improvement Project Presentations First Place Award-Tucson
• Milag Nahata, MS, PharmD: American Pharmacists Association Gloria Niemeyer Francke Leadership Mentor Award
• Natasha Parker (Pharmacy Intern): American Pharmacists Association National Patient Counseling National Competitor
• Kevin Reger, CPhl: Arizona Pharmacy Association Past Technician at Large Award
• Bella Sayfer (Pharmacy Intern): Clarion Interprofessional Case Competition Fourth Place Winner
• Avis M. Taylor, MPH, MCHES: Bronze Medal Winning Poster Award, Journal of Managed Care & Specialty Pharmacy Conference
• Victoria Towers, RN: 4th Annual El Rio/The Wright Center Virtual Health Research Fair Community Impact Award
• Shannon Vaffis, MPH, PMP: International Society for Pharmacoeconomics and Outcomes Research (ISPOR) Distinguished Service Award at the ISPOR Annual Meeting President’s Dinner; Travel Award, ISPOR
• Terni Warholak, PhD, RPh, CPHQ: FAPhA: The University of Arizona Award for Excellence, Department of Pharmacy Practice and Science; Bronze Medal Winning Poster Abstract, Journal of Managed Care & Specialty Pharmacy Conference; Gold Medal Winning Poster Abstract, The Pharmacy Quality Alliance Annual Meeting

• Rhys Axon, PhD, MPH, MS: Member, Research Affairs Committee
• Kevin Barton, PharmD: Vice Chair of Communications, Arkansas Pharmacists Association; Member, American Pharmacists Association Fellows Awards Committee
• Jenny Bingham, PharmD, BCACP: Past Chair, American Pharmacists Association Telehealth Special Interest Group; Member Spokesperson, American Pharmacists Association; Abstract Reviewer, American Pharmacists Association APaA2020 Contributed Papers Program; Member, Arizona Health Improvement Plan Initiative for Heart Disease & Stroke Workgroup; Member, Arizona Pharmacy Association (AzPA) Mentor Connection Program Special Interest Group Steering Committee; Member, AzPA Board of Pharmacy Specialties Committee; President, TRHC Research Strategy Committee
• Jonathan Bosold, PharmD: Member, Pharmacy Quality Alliance Measure Validity Panel
• Kristin Calabro, PharmD: Chair, American Pharmacists Association Telehealth Special Interest Group
• Jessica DiLeo, PharmD, BCACP, BCGP: Past President, Arizona Pharmacy Association
• Patrick Hryshko, PharmD: Secretary, Arizona Pharmacy Association
• Sandra Leal, PharmD, MPH, FAPhA, CDE: Second Vice-Chair, El Rio Health Center Board
• Breanne Lott, PhD, MPH, CPH: Health Behavior Health Promotion Representative, Mel & Enid Zuckerman College of Public Health Student Affairs Committee; Member, Public Health Research & Poster Forum Planning Committee; President, Alpha Nu (Arizona) Chapter of Delta Omega National Public Health Honorary Society
• Srijitha Marupuru, PharmD: Track Representative, Graduate Student Council, Health Policy and outcomes Department; President-Elect, The University of Arizona International Society for Pharmacoeconomics and Outcomes Research Student Chapter
• Jared Safran, PharmD, MS: Board Member, Academy of Managed Care & Specialty Pharmacy Finance Committee

• Dani Scherer, PharmD: Member, Pharmacy Quality Alliance Measure Development Panel
• Nicole Scovis, PharmD, BCPS, BCACP: Past-Chair, Arizona Pharmacy Association Mentor Connection Program Special Interest Groups Steering Committee; Past-Chair, Arizona Pharmacy Association (AzPA) Continuing Education Committee; Member, AzPA Board of Pharmacy Specialties & Clinical Committees; Member, American Pharmacists Association Medication Management Clinical, Business Model, and Chronic Care Management Committees; Member, American College of Clinical Pharmacy Ambulatory Care Practice and Research Network, Contributor, ForumRx
• Mindy Smith, BSPharm, RPh, MHA: Chair, National Council for Prescription Drug Programs, Foundation and Secretary of the Alliance for Integrated Medication Management
• Avis M. Taylor, MPH, MCHES: Member, Academy of Managed Care Pharmacy; American Public Health Association, Public Health Education/Health Promotion & Pharmacy Sections
• Jacques Turgeon: Treasurer, American Society for Clinical Pharmacology
• Shannon Vaffis, MPH, PMP: President, The University of Arizona International Society for Pharmacoeconomics and Outcomes Research (ISPOR) Student Chapter; Chair, Survey and Evaluation Committee, ISPOR; Member, Global Student Council and Network, ISPOR
• Terni Warholak, PhD, RPh, CPHQ: FAPhA: Inaugural Member, Content Development Advisory Committee; Pharmacy Quality Alliance (PQA); Delegate, American Pharmacists Association (APhA) Annual Meeting House of Delegates; Chair Elect, Economic and Social Sciences (ESAS) Section, APhA; Member, Education Standing Committee, APhA; Reviewer, Annual Meeting Abstracts, Academy of Pharmacy Practice Management and ESAS Sections; Member, Medication Safety Curriculum Workgroup, International Society for Quality in Health Care; Member, National Quality Forum Scientific Methods Panel, National Quality Forum
Peer reviewers for journals

- Elizabeth Anderson, MPH: BMC Women’s Health; Journal of Interprofessional Care; Breast Cancer Research and Treatment
- Rhys Axon, PhD, MS: Currents in Pharmacy Teaching and Learning; Journal of Clinical Medicine
- Jenny Bingham, PharmD, BCACP: Pharmacy; Journal of the American Pharmacists Association; Arizona Journal of Pharmacy; Journal of Telemedicine and Telecare; Mental Health Clinician
- Breanne Lott, MPH, CPH: Journal of Cancer Education; University of Michigan Pre-Publication Support Services
- Terri Warholak, PhD, RPh, CPhQ, FAPhA: peer reviewer for numerous professional journals

Postgraduate residency programs

Postgraduate Year-2 Ambulatory Care Pharmacy Residency Program
Site name: The University of Arizona College of Pharmacy/SinfoniaRx Medication Management

Dr. Jenny Bingham is Director of Ambulatory Care Residency Programs & Research at TRHC and a Clinical Instructor in the Department of Pharmacy Practice and Science at The University of Arizona. She is a board-certified Ambulatory Care Pharmacist. Dr. Bingham is also certified in Psychiatric Pharmacy. Her passion is advancing the role of pharmacists in the telehealth setting, as demonstrated by her role as Chair of the American Pharmacists Association’s Telehealth Special Interest Group, where she led her team to create one of the first advanced professional training series for telehealth pharmacists. She specializes in research related to innovative pharmacist roles in chronic care management, transitions of care, epilepsy, and neuropsychiatric pharmacy settings.

Dr. Annette De Santiago is a postgraduate year-2 Ambulatory Care Pharmacy Resident with The University of Arizona College of Pharmacy/SinfoniaRx Medication Management Program. She received a Doctor of Pharmacy degree from Southwestern Oklahoma State University College of Pharmacy in Weatherford, Oklahoma. She completed a postgraduate year 1 pharmacy practice residency in South Texas at Doctors Hospital at Renaissance in affiliation with Texas A&M University Irma Lerma Rangel College of Pharmacy. Dr. De Santiago is currently working on a research project related to the integration of a concierge pharmacist into a community-based clinic interprofessional healthcare team model.

Dr. Jennifer Stanislaw is a postgraduate year-2 Ambulatory Care Pharmacy Resident with The University of Arizona College of Pharmacy/SinfoniaRx Medication Management Program. She received a Doctor of Pharmacy degree at Pacific University School of Pharmacy near Portland, Oregon. Following graduation, she worked with Pacific University as an Academic and Ambulatory Care Fellow before relocating to Tucson to further her experience in Ambulatory Care. Her primary interests include chronic disease management and academia. Dr. Stanislaw is currently working on a research project related to the impact of a pharmacist-delivered comprehensive medication review on chronic disease health markers.
Postgraduate residency programs

Postgraduate Year-1 Pharmacy Practice Residency Program
Site name: Tabula Rasa HealthCare

Dr. Nishita Shah Amin is Director of Pharmacy Practice Residency Programs for the TRHC Applied Precision Pharmacotherapy Institute (APPI) at the TRHC Moorestown, New Jersey, campus. Dr. Amin is responsible for mentoring pharmacists to utilize their accumulated knowledge and experiences in order to practice personalized and precision medicine and to excel in their future professional endeavors. In addition, she collaborates with key stakeholders in order to mentor and foster residency-related research projects and company initiatives. Dr. Amin is also actively working to accredit a postgraduate year 2 Pharmacogenomics Program.

Dr. Anna Furman received a Doctor of Pharmacy degree from the Ohio Northern University Raabe College of Pharmacy in 2019. She is currently completing a postgraduate year 1 pharmacy practice residency at TRHC, with a focus on geriatric personalized medicine and targeted therapeutics. Dr. Furman is currently working on an implementation research project related to antipsychotic deprescribing in a Program of All-Inclusive Care for the Elderly (PACE) facility.

Dr. Shabnam Shojaat received a Doctor of Pharmacy degree from the University of Maryland School of Pharmacy in 2019. She is currently completing a postgraduate year 1 pharmacy practice residency at TRHC, with a focus on geriatric personalized medicine and targeted therapeutics. Dr. Shojaat is currently working on a research project focused on a pharmacist-led pharmacogenomics clinical service within the Program of All-Inclusive Care for the Elderly (PACE) with a focus on opioids.

Dr. Stacy-Ann Wright received a Doctor of Pharmacy degree from the St. John Fisher College Wegmans School of Pharmacy in Rochester, New York, in 2019. She is currently completing a postgraduate year 1 pharmacy practice residency at TRHC, with a focus on geriatric personalized medicine and targeted therapeutics. Dr. Wright is currently working on a research project focused on a critical appraisal of drug interaction databases.
Current research projects

1. Hesperos, Inc.: Torsadogenic Risk Evaluation of Physiological and Supraphysiological Dosing
   Researchers: Jacques Turgeon, Veronique Michaud, James Hickman

2. University of Florida Center for Pharmacometrics & Systems Pharmacology
   Pharmacometrics Modeling and Simulation of the Probe Drug tramadol Administered Alone or While Subjected to Competitive Enzyme Inhibition
   Researchers: Jacques Turgeon, Veronique Michaud, Stephan Schmidt, Tao Long

3. University of Florida Center for Pharmacometrics & Systems Pharmacology
   PBPK Modeling of Candesartan and Its Active Metabolite When Administered Alone or During Concomitant Administration With Esomeprazole Considering Time-Dependent Inhibition
   Researchers: Jacques Turgeon, Veronique Michaud, Karthik Lingineni

4. DARTNet Institute
   An Observational Exploration of Various Medication Risk Scores Calculated Using Electronic Health Record Data in a General Population and Correlated to Medical Outcomes
   Researchers: Jacques Turgeon, Veronique Michaud, Heather Anderson

5. Four Seasons: Hospice, Palliative Care
   A Prospective Multicenter Cohort Study to Evaluate the Characteristics and Clinical Implications of a Clinical Decision Support System and of Pharmacogenomic Information Relevant to Polypharmacy Actions in Patients With Advanced Illness Who Are Receiving Multiple Drugs for Pain and Other Disorders
   Researchers: Jacques Turgeon, Veronique Michaud, Janet Bull

6. Comprehensive Medication Review Completion in Medically Underserved Areas and Populations
   A retrospective study to evaluate the completion rate of comprehensive medication reviews in both rural and non-rural medically underserved areas and population.
   Researchers: Jenny Bingham, Lisa Le, Isabel Paulk

7. Assessing the Root Causes of Medication Non-Adherence
   A retrospective study evaluating the reasons for intentional non-adherence to medication regimens.
   Researchers: Jenny Bingham, Kevin Barton, The University of Arizona College of Pharmacy Quality Improvement Student Group

8. Residency Research Collaboration Across Multiple Institutions
   A descriptive study evaluating unique learning experiences and protocols associated with the postgraduate and fellowship residency programs.
   Researchers: Nicki Scovis, Ann Taylor, Rhys Axon, Terri Warholak

   A systematic review assessing differences in proportion of days covered and medication possession ratios rates in patients with chronic conditions.
   Researchers: Jenny Bingham, Armando Silva Ahmadi, Ann Taylor, Yewen Li, Natalie Toselli, Shwana Fox, Melissa Black

10. Improving Comprehensive Medication Review Completion Rates Using a Revised Call Script
    A prospective study evaluating the effectiveness of a new call script to engage patients and increase comprehensive medication review completion rates.
    Researchers: Avital Gurman, Carolyn Brown, Saul Ortega

11. Patient Outcomes Beyond Comprehensive Medication Review Interventions
    A retrospective study evaluating the impact of pharmacist-delivered interventions and recommendations during a comprehensive medication review on health markers and chronic condition management.
    Researchers: Jennifer Stanislaw, Jenny Bingham, Nicki Scovis

12. Assessing perception of a concierge pharmacist service in a provider office setting
    A prospective study evaluating the perception of an interprofessional team working with a concierge pharmacist.
    Researchers: Annette De Santiago, Jenny Bingham, Kevin Boesen

13. Rotation Student Management Cost Analysis
    A retrospective study evaluating cost effectiveness of implementing a position dedicated to advanced pharmacy practice experience administration.
    Researchers: Cameron Haun, The University of Arizona College of Pharmacy Quality Improvement Student Group

14. Board of Pharmacy Specialties Certification Effect on Job Satisfaction
    A prospective survey study analyzing the impact of Board of Pharmacy Specialties certification on employee job satisfaction.
    Researchers: Nicholas Ong, The University of Arizona College of Pharmacy Quality Improvement Student Group

15. Assessing Adherence Improvement & Gaps in Care Medications in RxCompanion
    A descriptive study determining if drugs listed as contraindicated to drugs that would be recommended by call centers based on Add / Adherence Alerts are in fact contraindicated according to the medical literature.
    Researchers: Bob Lipsy, Whitney Everett, The University of Arizona College of Pharmacy Quality Improvement Student Group

16. Assessing Rate of Medication Errors and Drug-Drug Interactions Identified in a Retail Community Setting
    A descriptive study evaluating for trends between pharmacist shift time and medication error incidence.
    Researchers: Jenny Bingham, Max Jacobson, Nestor Lopez, Yuchen Xu, Christopher Zermeno, Andrew Escobedo

17. Effectiveness of a Clinical Decision Support System in Identifying Drug-Drug Interactions in a Medication Therapy Management Setting
    A prospective study evaluating for improved clinical decision making through use of a support system.
    Researchers: Jenny Bingham, Ann Taylor, Rhys Axon, Jacques Turgeon, Veronique Michaud
